

International Exhibition "Education and Career - 2015"

Peter the Great St. Petersburg Polytechnic University participated in the 11th international exhibition "Education and Career" which was held in the Exhibition Complex "LENEXPO" on April 3-4, 2015.

This event is truly popular, and Polytechnic exhibition stands attracted over 800 visitors this year. School graduates and their parents took the opportunity to communicate with university professors and members of the admission committee in order to obtain detailed information of every SPbPU Institute, educational profiles and majors. In addition, they could be aware of the admission statistics, competition, average grades in 2014. Visitors were told about changes to the admission requirements in 2015 and benefits for honors school graduates.

The exhibition presented educational institutions from different countries - Austria, Germany, France, Spain, Sweden, Finland and others. Visitors were given the chance to learn more about Bachelor's and Master's programs in foreign universities, professional development courses, business education, internships, international grants and scholarships, free education opportunities.
