

## 50 employees of the Donbas National Academy of Civil Engineering and Architecture have completed advanced training programs at SPbPU

50 employees of the Donbas National Academy of Civil Engineering and Architecture (DonNACEA, Makiivka) have successfully completed training programs at the NTI Competence Center «New Production Technologies» on the basis of the Institute of Advanced Manufacturing Technologies (IAMT) of SPbPU. The trainees were trained on the e-learning and distance learning portal of the Polytechnic University in accordance with the signed agreement on cooperation between SPbPU and DonNACEA in March 2022.

DonNACA trainees have been trained in three professional development programs: «Innovative and Digital Technologies in Education,» «Future Factory Technologies,» and «Additive Technologies. Basic Course», which were developed by the specialists of the NTI Competence Center «New Production Technologies» of SPbPU and IAMT SPbPU together with the Institute of Additional Education (IDE SPbPU) with the support of the Open Education Center of SPbPU. Each program is presented in an online format.

As a result of the training, the participants of the programs acquired knowledge

and competencies in the field of innovative digital educational technologies, improvement of existing professional competencies, as well as became familiar with modern digital industry technologies and models of their optimal application within professional activities and with modern research trends in various fields of knowledge that form modern digital industry technologies.

In the process of learning from the SPbPU professional development programs, the group trainees gained a large amount of new knowledge and developed their teaching competencies in various fields. These courses allow not only to get knowledge in the field of digital economy and get acquainted with modern trends in industrial, economic and social areas, but also contribute to the creation of modern educational environment in universities for training a new type of specialists, commented Yaroslav Nazim, vice-rector for scientific and pedagogical work and international relations of DonNACEA. We thank the organizers for the implementation of courses using modern teaching methods and effective methods of mastering the knowledge.

Prepared by the SPbPU International Office based on the information from SPbPU
