

International applicants apply to Polytechnic University: interim results of admission

The admission campaign for international applicants continues. In August, the SPbPU International Office has summarized the interim results. To date, the staff of the Office of International Education have accepted and processed more than 3,700 applications from international applicants. More than 1,400 applicants have been admitted to the admission tests. More than 400 foreign applicants are accepted to the University under the line of the Ministry of Science and Higher Education of the Russian Federation (as part of the quota). It is noteworthy that this year there are many young scientists among them: more than 30 people applied for postgraduate studies. Also this year Polytechnic University selected 56 winners of the annual international competition [Open Doors: Russian Scholarship project](#). Of those, 10 won in the «postgraduate school» track.

The admission campaign for international applicants continues. In August, SPbPU International Services has summarized the interim results. To date, the staff of the Office of International Education has accepted and processed more than 3,700 applications from international applicants. More than 1,400 applicants have been admitted to the admission tests. More than 400 foreign applicants are accepted to the University on the direction of the Ministry of Science and Higher Education

of the Russian Federation (as part of the quota). It is noteworthy that this year there are many young scientists among them: more than 30 people applied for postgraduate studies. Also this year Polytechnic University selected 56 winners of the annual international competition [Open Doors: Russian Scholarship project](#) in English: this year, SPbPU has more than 30 international master's and bachelor's degree programs in such topical areas as civil engineering, emergency preparedness and response, nuclear power, microelectronics, mechanics and mathematical modeling, plasma physics, business engineering, economics, and many others.

[University foundation programs](#) are traditionally in demand among foreign audiences. More than 400 students from Asia, Africa, Latin America and the Middle East have already applied. Another example of increased interest from international students is the [International Polytechnic Summer School](#). This year more than 400 foreigners are taking part in it.

Polytechnic University once again demonstrates its ability to adapt quickly to changing external conditions. We can see a significant interest from the foreign audience in the wide range of educational programs of the university, which first of all speaks about the reliable reputation of the university and the trust of foreign applicants, students and their parents, said the Head of the Department of International Education Evgenia Satalkina. In order to strengthen the reputation and increase the brand awareness of the university since the beginning of 2022,

the international Office has done a great job which included participation in more than 25 international educational programs.
