

International Student of the Polytechnic University Studies Mechanical Engineering and Creates Amazing Paintings. IndiaEducationDiary

Very versatile students study at Peter the Great Saint Petersburg Polytechnic University. Tanuj NAMBUDRI came to St. Petersburg from India, where he got a bachelor's degree. At the Polytech, he continues his master's degree, studies mechanical engineering, and in between he paints. Tanuj himself says about it: "In my free time, I paint pictures and try to say through them that life is amazing. Sometimes it's difficult, but in the end we always see the best side of it."
