

International students of SPbPU can get vaccinated against COVID-19 for free

Updated information for international students of SPbPU: international students of SPbPU can get vaccinated against COVID-19 with the «Sputnik Light» vaccine for free at Polyclinic No. 76.

To register for a free vaccination, you need to send an application to the mail nedelko_ps@spbstu.ru. In the e-mail you should specify your last name and your first name, the name of your institute, your group number, your phone number and your contact email. [Here](#) you may download a brochure with instruction in Russian and English.

After vaccination, you will be given a QR code, which makes it possible not to miss classes at the university and freely visit public places in St. Petersburg. If you need help from students to accompany, contact Tutor Forces in [VK](#) or [Facebook](#).

Vaccination significantly reduces the risks of severe consequences from the coronavirus and will avoid in the future the observation of dormitories, isolation of contact students.
