

To foreign applicants: registration on the quota of the Government of the Russian Federation for the 2023-2024 academic year continues

A webinar was held for foreign applicants, where university representatives told about the peculiarities of admission under the quota. Let us remind that the selection campaign for education in Russia at the expense of the budgetary funds of the Government of the Russian Federation will last until March 20, 2023 — there is very little time to submit an application. Those who have not yet had time to fill it out should register on the portal of the information system education-in-russia.com.

Read the list of requested documents carefully. You should upload your photo and scan of passport, educational certificate or certificate of education period with notarized translation into Russian, as well as copies of medical certificates, Anna Kolotaeva, the Deputy Head of the International Education Department commented. In addition, you need to attach your consent for processing, transferring and storage of personal data.

Another important point: if a prospective student wants to enter Polytechnic University, they must put Peter the Great St. Petersburg Polytechnic University

in the first place when filling out the application form — choose the university as the number one priority.

When you've filled out the application form, don't forget to put it in the 'To Check' status, Anna Kolotayeva noted. Applications in the «Draft» status will not be considered, so be sure to check this point.

Candidates have the right to submit information about their individual achievements, the results of which will be taken into account in the selection process through the accrual of points. If Polytechnic University is listed first on the candidate's application, a letter of recommendation can be requested in person. To do this, go to room 204 in the 15 academic building (Grazhdansky Avenue, 28).

If you have problems with registration and filling out the application, you can consult the technical support service in your personal account on the education-in-russia.com website or the Rossotrudnichestvo representative office in your country.
